Strauss Menopause Drops™

Did You Know? The process of menopause happens slowly over three stages: perimenopause, menopause and postmenopause.

What Are the Symptoms? When it starts naturally, the first sign should be an irregular menstrual cycle. You might also notice these vasomotor symptoms (VMS) such as hot flashes and night sweats. Other common symptoms that occur during menopause include: lower sex drive, sweating, racing heart, headaches, vaginal dryness and soreness, painful sex, and trouble sleeping.

How can Menopause Drops™ help?

Helps women regain control of their bodies and improve their overall well-being using a mild and non-invasive approach, suitable for individuals who may be hesitant about traditional medications.

Alleviates hot flashes, night sweats, mood swings, sleep disturbances, vaginal dryness and other menopausal symptoms.

Uses high-quality herbal ingredients with a proven track record for addressing menopausal symptoms.

Contains extracts of 20 different medicinal herbs that all have use as female tonics and as other remedies in support of the female reproductive system and symptoms associated with menopause pre- and post-menopause.
